

Class of '85,

I want this email to be a very specific topic email. I have attached 2 links that EVERYONE should open and sign up for ASAP, no excuses OBSTCR! One is the Daily Shipmate, this is a really cool daily, digital version of Shipmate and I learn something new and amazing every day from it. Plus they keep me informed of happenings around the Yard. I met the developer, John Schofield, not that long ago and he did this in his spare time as a gift to the USNA Alumni. It is a GREAT GIFT, trust me. Sign up today is all I have to say. Click on this link and off you go!

Next is the USNA 1985 Class Reunion Cruise Book. Another phenomenal gift to our Alumni and our Class, check it out. Build a profile and enjoy keeping up with and learning more about your classmates. Post pics, make a cool profile and enjoy catching up, especially if you are coming to the reunion this week and even if you are aren't. Access to edit this will end later this year and once you have a profile at the deadline, you cannot change it and if you don't have a profile, you will be left out in the cold and cannot add one. I cannot stress how AWESOME this is, check it out and get this DONE... ALSO ASAP and ALSO OBSTCR!!
